

Three jellyfish sculptures of different sizes are arranged on a light brown, textured surface. Each sculpture features a translucent, bell-shaped upper body with faint, darker markings. Below the bell is a complex, dense structure of white, fibrous material, resembling a coral or a highly branched oral arm, which is surrounded by a thick layer of fine, white, hair-like fibers. The largest sculpture is on the left, a medium-sized one on the right, and a smaller one is centered between them.
